

Sycamore Termly Newsletter

Summer 2 – 2023

Starts Monday 5th June, ends Tuesday 25th

Dear Parents/Carers,

It's our final term of the year. We have lots of learning to pack into seven weeks!

This term our topic project will be Through the Ages

Our learning will focus on the Bronze and Iron age this term. Children will learn about how life changed for people after the stone age as new technologies were discovered.

Literacy

Our writing topics will be adventure stories, newspaper reports and instructions.

Children are now used to taking quizzes on the books they read. We're visiting the local library and making sure we enjoy both reading independently and listening to stories every day.

Please continue to encourage your child to read every day. A good reading habit will make a huge difference to their learning and their success at school.

Maths

Our maths topics will focus on time, shape, position and direction.

We will continue to work on number skills too: practising times tables and written methods for addition, subtraction, multiplication and division.

Science

Our science topic this term is States of Matter.

This means children will be learning about solids, liquids and gases.

Design

Technology

Our topic this term is Sandwich Snacks! Children will be designing and making their own tasty treats and learning about nutrition, so they understand how to make it healthy.

Homework

Homework is set on Friday and collected the following Wednesday. New weekly spellings will be set each Monday and tested on Friday.

DOJO and website

Try to keep an eye on Class Dojo and the school website for important dates and upcoming events. Feel free to contact me through Class Dojo if you have any questions or concerns.

PE

Our PE session will be on a Monday. A cricket coach will be coming into school to teach the children throwing, catching and batting skills. Children will also take part in swimming every day for the first three weeks.
